Quality & Trust

CODE OF ETHICS

Fleximatic honors every agreement and commitment made with our Distributors by encouraging law-abiding operations, the compliance with tax regulations, and the fulfillment of all conditions, delivery times and services offered. We never do business directly with our Distributors' customers. We are convinced that, by upholding our values, we will be able to build a culture based on the transparency of our operations and institutional ethics for the benefit of all our clients and collaborators.

MISSION

To design, manufacture, commercialize and import high-end plumbing hardware and to import top quality tools, electrical fixtures, gardening accessories, and piping fittings. Also, to foster profitability and competitiveness for our commercial partners and to provide our staff with career growth opportunities.

VISION

To become the leading company in the plumbing hardware sector worldwide.

"Everything we do must bring value to the customer."

- ✓ We are a proud team of Mexican manufacturers and distributors of high-end plumbing hardware.
- ✓ Our products are made using 100% virgin raw materials and feature unique, leading-edge designs.
- ✓ World pioneers in the development of sink traps with flexible extensions.
- ✓ We have installed quality and trust in homes for over 35 years.
- ✓ Pioneers in creating products with the Zero Leakage technology that brings leaks directly to the drainage.

We hold more than 100 patents, utility models and industrial designs.

"When you care about water, you care about life."

www.fleximatic.com.mx

Fleximatic leading the way!

At Fleximatic, we want the best quality for our customers, that is why we use 100% virgin materials offering great advantages; one of them is acetal resin (POM raw material).

Why do we use acetal resin?

Acetal resin (POM raw material) is a plastic material listed among the so-called "auto lubricated". The homopolymer possesses a higher crystallinity, improving resistance to impact and providing greater rigidity and soundness; this makes it a good alternative to metal. Thanks to its limited thermal expansion and low water absorption, it will neither corrode nor rust, ensuring a longer service lifespan. It is resistant to chemicals and is unaffected by solvents and combustibles, among other substances. POM raw material is chemically resistant to alkalis, hydrocarbons, oils, grease, gasoline and most cleaning agents.

- ✓ Limited thermal expansion and low water absorption.
- ✓ Resistant to solvents and other chemicals.
- ✓ Will neither corrode nor rust.
- ✓ Resistant to high temperature.
- ✓ Metal-like resistance.

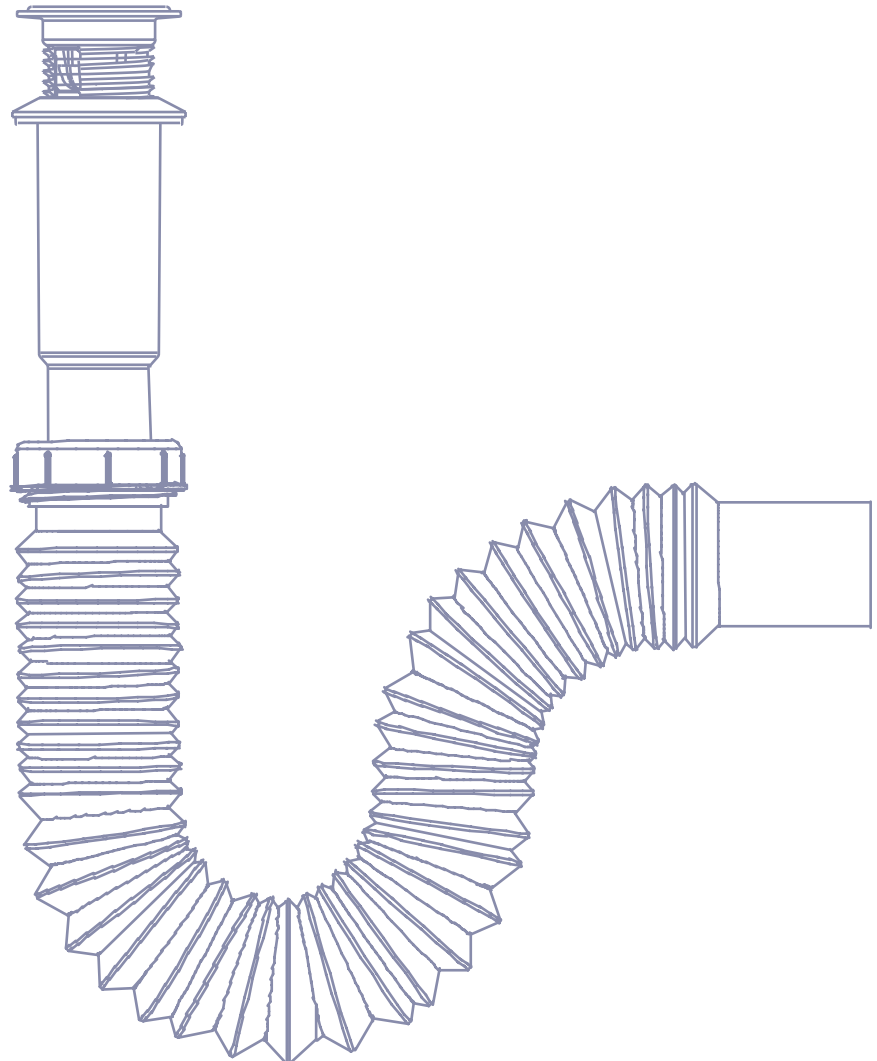

Find our acetal resin products on pages **22 and 34**

SINK TRAPS

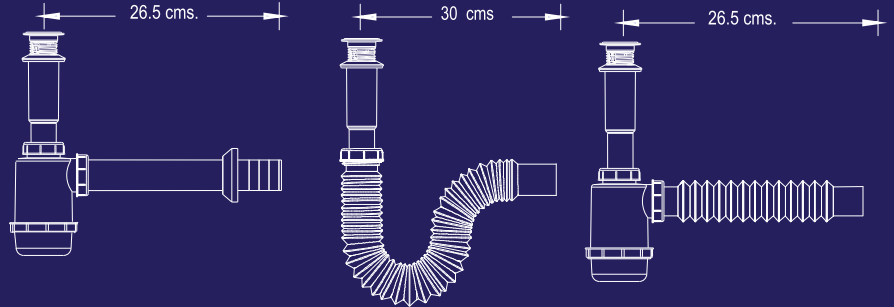

BATHROOM

Technical specifications:

Material: White polypropylene (raw material) and soft PVC (raw material).

Differentiating attributes:

- Flexible accordion (1 1/2" diameter), prevents any possibility of clogging and provides a larger water outlet.
- The use of virgin raw materials (not recycled or reworked) provides more strength, durability and, above all, flexibility.
- Tapered threads with perfect sealing to prevent both seizing and leaking at the same time.
- Zero odor.
- Extra large trap.
- Easy installation.

P-trap and grid w/ stainless steel cover (2.6'/80 cm extension).

The Push system by Fleximatic!

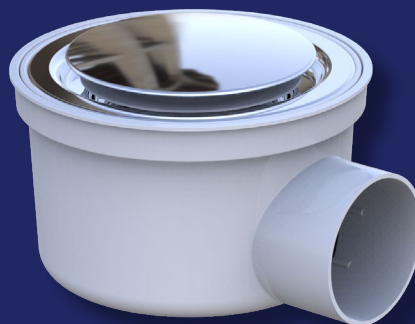

Our floor drain family grows with the pop-up drain that you can open to let water through and close accordingly to prevent wastewater odor from entering.

Our pop-up floor drains feature an ABS raw material plastic body, a 0.4" thick stainless steel cover with no sharp edges, a rust-proof brass pop-up mechanism with a lifespan of up to 50 thousand uses, an acetal resin core and a silicone gasket. Silicone provides greater flexibility, functionality and durability, guaranteeing perfect sealing to prevent wastewater odor from entering.

- ✓ ABS raw material body.
- ✓ Brass pop-up mechanism.
- ✓ Up to 50,000 uses guaranteed.
- ✓ Silicone gasket.

Code 2284 18 PCS

Trap

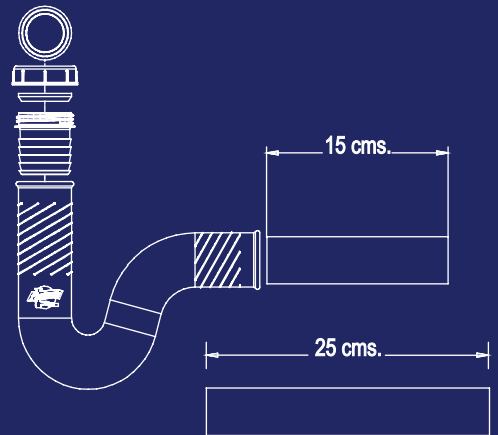

Large bottle with 0.82'/25 cm flanged tailpiece (1.8'/55 cm extension).

SOFT PVC P-TRAPS

Technical information

Material: Soft PVC.

- Universal compatibility thanks to its joint gasket for kitchen sink or adapter gasket for bathroom sink.
- Only product with a threaded adapter on the lower end for fittings to the sink tailpiece, avoiding the use of clamps.
- Slip nuts with tapered threads to prevent seizing.
- Perfect sealing to prevent leaks.

Code 2370 35 PCS

Code 2808 30 PCS

Soft PVC P-trap

Without arm, with threaded adapter and slip nut. For bathroom or kitchen sink.

Code 2807 30 PCS

Soft PVC P-trap

Without arm, without threaded adapter. For bathroom or kitchen sink.

Code 2812 20 PCS

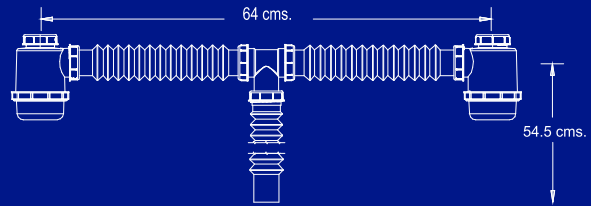

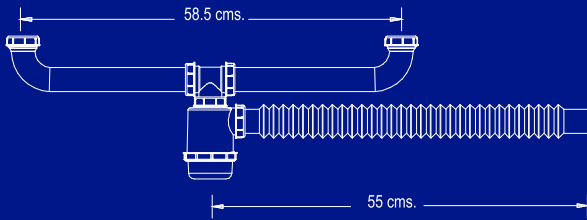

Soft PVC P-trap assembly

Without cover. For bathroom sink.

Quality & Trust

DRAINS

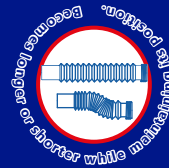

Technical specifications

Material: White polypropylene (raw material) and soft PVC (raw material).

Differentiating attributes:

- Flexible accordion (1 1/2" diameter), prevents any possibility of clogging and provides a larger water outlet.
- The use of virgin raw materials (not recycled or reworked) provides more strength, durability and, above all, flexibility.
- Tapered threads with perfect sealing to prevent both seizing and leaking at the same time.
- "Zero Odor" extra large trap.

FLUSH VALVE KIT

Technical specifications

Material: White polypropylene (virgin) and hydrogenated PVC (for the black Flexi-Flapper).

Differentiating attributes:

- Maintains efficiency either with low (3.5 PSI/0.25 kg/cm²) or high (100 PSI/7 kg/cm²) pressure.
- Fill valve with rotating top for easy adjustment and maintenance, no bolts involved.
- Works great even with raw water (containing specks of dirt).
- No tools needed for installation.
- 4" float ball and 3/8" plastic coupling bolts.

**BATHROOM
SINK**
1
YEAR
WARRANTY

Code 3204 15 PCS

Contains:

- 2 water hoses w/ nylon insert for bathroom sink (1/2" x 1/2" x 40 cm).
- 2 zinc angle valves (1/2" x 1/2").
- 1 flexible bathroom sink trap w/ small bottle, 1.8'/55 cm extension and stainless steel cover.
- 1 rubber adapter (#3) 1 1/2" x 2".
- 1 PTFE Fleximatic tape 7 m x 1/2" (white).

KITCHEN SINK
1
YEAR
WARRANTY

Code 3207 15 PCS

Contains:

- 2 water hoses w/ nylon insert for kitchen sink (1/2" x 1/2" x 50 cm).
- 2 zinc angle valves (1/2" x 1/2").
- 1 flexible kitchen sink P-trap w/ 2.6'/80 cm extension, flanged tailpiece and stainless steel sink strainer.
- 1 rubber adapter (#3) 1 1/2" x 2".
- 1 PTFE Fleximatic tape 7 m x 1/2" (white).

DOUBLE BOWL SINK
1
YEAR
WARRANTY

Code 3212 6 PCS

Contains:

- 2 water hoses w/ brass insert for kitchen sink (1/2" x 1/2" x 50 cm).
- 2 zinc angle valves (1/2" x 1/2").
- 2 combined sink strainers w/ 3.9"/10 cm flanged tailpiece.
- 1 rubber adapter (#3) 1 1/2" x 2".
- 1 PTFE Fleximatic tape 7 m x 1/2" (white).
- 1 standard (American) drain.
- 1 2.6'/80 cm flexible extension for bathroom/kitchen sink.

TOILET
1
YEAR
WARRANTY

Code 3209 8 PCS

Contains:

- 1 large wax ring w/ flange.
- 1 zinc angle valve (1/2" x 1/2").
- 1 water hose w/ nylon insert for toilet (1/2" x 15/16" x 40 cm).
- 2 2 1/2" coach screws for toilet.
- 1 PTFE Fleximatic tape 7 m x 1/2" (white).
- 1 2" beveled gasket for toilet.
- 1 "Maxtor" flush valve kit (white).

**BATHROOM
SINK**
1
YEAR
WARRANTY

Code 3205 15 PCS

Contains:

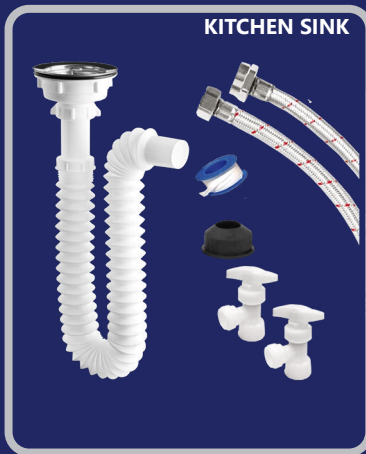

- 2 water hoses w/ nylon insert for bathroom sink (1/2" x 1/2" x 40 cm).
- 2 acetal resin angle valves (1/2" x 1/2").
- 1 rubber adapter (#3) 1 1/2" x 2".
- 1 PTFE tape 7 m x 1/2".
- 1 flexible bathroom sink trap w/ small bottle, 1.8'/55 cm extension and stainless steel cover.

DOUBLE BOWL SINK
1
YEAR
WARRANTY

Code 3210 7 PCS

Contains:

- 2 water hoses w/ brass insert for kitchen sink (1/2" x 1/2" x 50 cm).
- 2 acetal resin angle valves (1/2" x 1/2").
- 2 combined sink strainers (stainless steel and PP w/ 3.9"/10 cm flanged tailpiece).
- 1 rubber adapter (#3) 1 1/2" x 2".
- 1 PTFE tape 7 m x 1/2".
- 1 standard (American) kitchen sink drain w/ flexible 2.6'/80 cm extension.

KITCHEN SINK

1 YEAR WARRANTY

Code 3218 | 15 PCS

Contains:

- 2 water hoses w/ brass insert for kitchen sink (1/2" x 1/2" x 50 cm).
- 2 acetal resin angle valves (1/2" x 1/2").
- 1 rubber adapter (#3) 1 1/2" x 2".
- 1 PTFE tape 7 m x 1/2".
- 1 2.6"/80 cm flexible kitchen sink P-trap w/ 3.9"/10 cm flanged tailpiece and stainless steel/PP sink strainer.

TOILET

1 YEAR WARRANTY

Code 3219 | 25 PCS

Contains:

- 1 water hose w/ nylon insert for toilet (1/2" x 1/2" x 40 cm).
- 1 acetal resin angle valve (1/2" x 1/2").
- 1 hydrogenated PVC Flexible toilet seal.
- 1 PTFE tape 7 m x 1/2".
- 2 2 1/2" x 1/4" coach screws for toilet.

TOILET

1 YEAR WARRANTY

Code 3220 | 10 PCS

Contains:

- 1 hydrogenated PVC Flexible toilet seal.
- 1 acetal resin angle valve (1/2" x 1/2").
- 1 water hose w/ nylon insert for toilet (1/2" x 7/8" x 40 cm).
- 2 2 1/2" x 1/4" coach screws for toilet.
- 1 PTFE tape 7 m x 1/2".
- 1 2" beveled gasket for toilet.
- 1 "Maxtor" flush valve kit (white).

New single-handle centersets for kitchen sink!

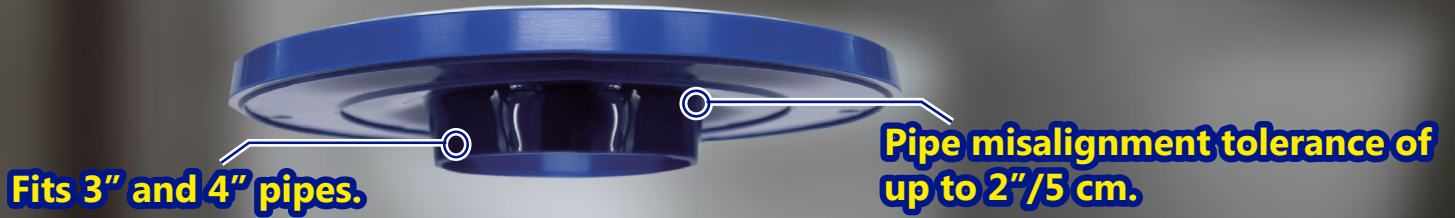

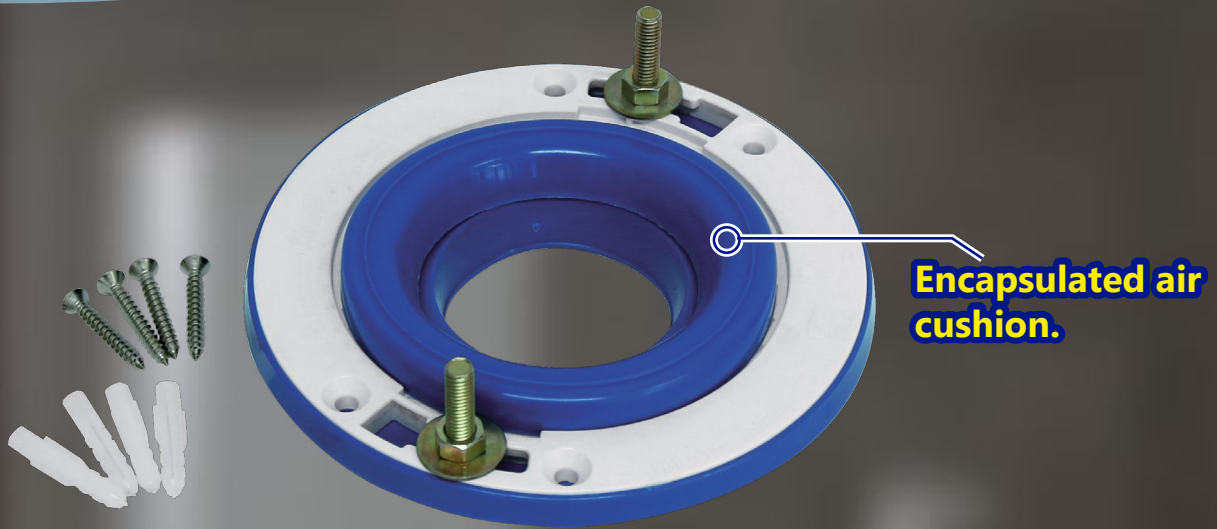

Quality & Trust

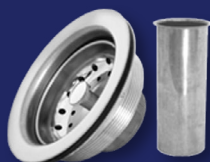

Universal Flange

Code 2577

- ✓ Withstands up to 17 tons without deformation.
- ✓ Allows for several installation attempts.
- ✓ Engineered rubber that guarantees a longer service life.

Code 4406 | 25 PCS

Sink strainer

Stainless steel with 3.9"/10 cm flanged tailpiece.

Fittings

CPVC, PVC and PPR Which to choose?

When installing the water supply piping in your construction project or while redesigning your home, you probably went through the moment of choosing the proper pipes and connections to bring water anywhere you needed.

It is essential not to overlook the importance of these components, and that is why **Fleximatic** wants to share with you the uses of PVC, CPVC and PPR connections.

CPVC

Characteristics:

Chlorinated polyvinyl chloride (CPVC) has characteristics similar to those of PVC, however, because chlorine is one of its components, it possesses a stronger chemical structure.

Suggested uses:

- It is ideal for residential, commercial and light industrial installations.
- Recommended for hot and cold water supply lines (up to 82 °C/179 °F).
- It has a higher resistance to high temperatures and corrosion than PVC.
- Its construction components contribute to keep drinking water in optimal conditions by preventing contamination.

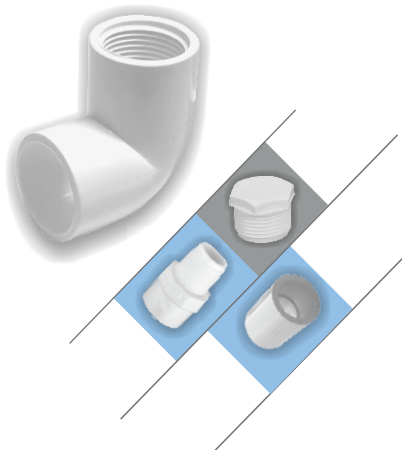

PVC

Characteristics:

PVC stands for polyvinyl chloride, a thermoplastic material that remains stiff at room temperature but becomes softer and more malleable at high temperatures.

Suggested uses:

- It is recommended for use in sewage and wastewater piping, as well as for irrigation ducts.
- PVC is less expensive compared to galvanizing.
- Corrosion resistant.
- It shall be used only for cold water.

PPR

Characteristics:

Random polypropylene copolymer highly resistant to corrosion and pressure. Thanks to its non-toxic characteristics, PPR is an ideal material for a safe and hygienic domestic installation for drinking water. Pipes are connected by using a thermofusion welding machine, which creates an uninterrupted bond between the connections and the pipe itself, preventing leaks.

Suggested uses:

- Practical for water supply in residential buildings, hospitals, homes, hotels, among others.
- This material can be used to create piping networks for systems that use rainwater, so it is ideal for carrying any type of aggressive fluids.
- Resistant to corrosion and cold and hot water (up to 203 °F/95 °C).
- Thanks to thermofusion welding, pipes and connections create a continuous piping system that provides the highest level of safety in water supply installations.

Technical specifications

Material: CPVC

Differentiating attributes:

- Withstands impacts and high temperature (up to 179 °F/82 °C).
- Does not rust or corrode.
- Maximum resistance to deformation, chemical products and additives.

Meets the following Mexican standards:

- NMX-E-181-CNCP-2006.
- ASTM D 2846.
- Compatible with CPVC cements that meet standard ASTM F 493.

SERVICE POLICIES

Warranty

All Fleximatic products come with a full warranty against manufacturing defects that may be validated through your representative or by reaching our customer service department.

Our products must be installed in accordance with the instructions printed on the back of our packages. For this reason, it is imperative that the installer reads, understands and follows the instructions correctly. The warranty will be considered void if any component is installed in a manner inconsistent with our installation guides.

Inquiries and returns

For your convenience, our customer service department is available for any inquiry by calling 800-112-0292 or by sending an e-mail to atencionaclientes@fleximatic.com.mx or fleximatic@fleximatic.com.mx.

Orders

All orders and customers are important for us at Fleximatic. To provide you with a better service, our sales policy requires a minimum net purchase of USD \$ 6,000.00. Any orders for smaller amounts will be forwarded to your chosen nearest distributor.

Fleximatic covers freight costs for up to 5% of the total order; in case of exceeding this amount, the difference shall be borne by the customer and/or the order amount must be increased to meet said percentage.

Dial our toll free 800 lines or send an e-mail to: exports@fleximatic.com.mx

Payment terms

When starting a commercial relationship with Fleximatic, the payment conditions for the first three purchases are strictly up-front payment via bank transfer to our account before the order ships.
